Eddy House neighborhood.

Impact

A neighborhood that looks good, that's free of trash and clutter is one that residents and businesses can be proud of. Our community can take pride in themselves and their abilities as well. A cleanup encourages residents to take ownership of the neighborhood and keep it clean and healthy. A neighborhood that smells like garbage or looks like a dump is an undesirable place to live and work. When that neighborhood is cleaned up, its reputation will improve as well as the residents' quality of life. Your work will help make that happen.
